Summer Race Series

About

Bryce Bike Park offers a race series that appeals to new and experienced riders. Included is a quality yet simple race structure with official timing built in. This is a low cost, low stress series for all skill levels. Our intent for the series is to help future racers build the necessary skills and foundation to compete on the next level while riding with experienced racers who will pass down useful tips and knowledge. If you want to experience a laid back yet professionally run race, come out and join us for a fun and stress-free event.

Series Format

The 2019 Bryce Bike Park Summer Series will take place from May 11th to October 12th. Participants will accumulate points throughout the series based on their place in each race. To be eligible for an overall series prize at the end of the season racers must attend a minimum of two races. Completing two races is not a requirement to take part in any race though.

Race Format

We will hold races the second Saturday of each month at 5 p.m. rain or shine. Racers must either register online or in person by noon on Saturday, the day of the race. Each race throughout the series will feature a different course. The park will close to the public at 5 p.m. for the race and every registered rider will have one timed run down the designated course. The course will be pre-marked on race day, so you can use regular operating hours for practice runs. Each race will be officially timed, and results will be posted as soon as possible after the race.
